## About the Library

Our College Library is automated with ILMS software as detailed below.

- Name of the ILMS Software: KOHA
- Nature of Automation (fully or partially): Fully
- Version: 22.04
- Year of Automation: 2003

The Central Library was started in the year 1998 along with the establishment of the college and relocated to the new block named Dr.A.P.J.Abdul Kalam block in the year 2008. The library has a large variety of books and journals on all aspects of engineering and technology. The Dewey Decimal Classification (DDC) is followed for classification and arrangement of books. It is a Learning Resource Center and offer Library services to all the students, Research Scholars, Faculty members and all other staff members. The reference section, CAS (Current Awareness service), Reprographic service, Newspaper clipping and Periodicals section are the basic services provided in the library.

The Library is computerized and automated by using KOHA software integrated with Barcode Technology, which is connected to the campus wide network. It enables user community of library to access the OPAC in order to search the library resources. OPAC facility is available for retrieving books and other learning materials of the Library including CDs, Project reports and previous year question papers. The Open Access System is used to provide maximum access to the library.

One E-books server loaded with CALIBRE-eBook management software has been installed for accessing the E-books and another server with DSpace software as Institutional repository. Both can be accessed on the campus wide network.

The Multimedia Resource Centre service provided to the students that can be used to further their education. In addition to its institutional membership in DELNET (Developing Library

### Library Automation

The library services are fully automated using Integrated Library Management System. All the transactions are fully computerized and all the documents are bar-coded. The bar-coded ID with Scanners is used for issue and return of books.

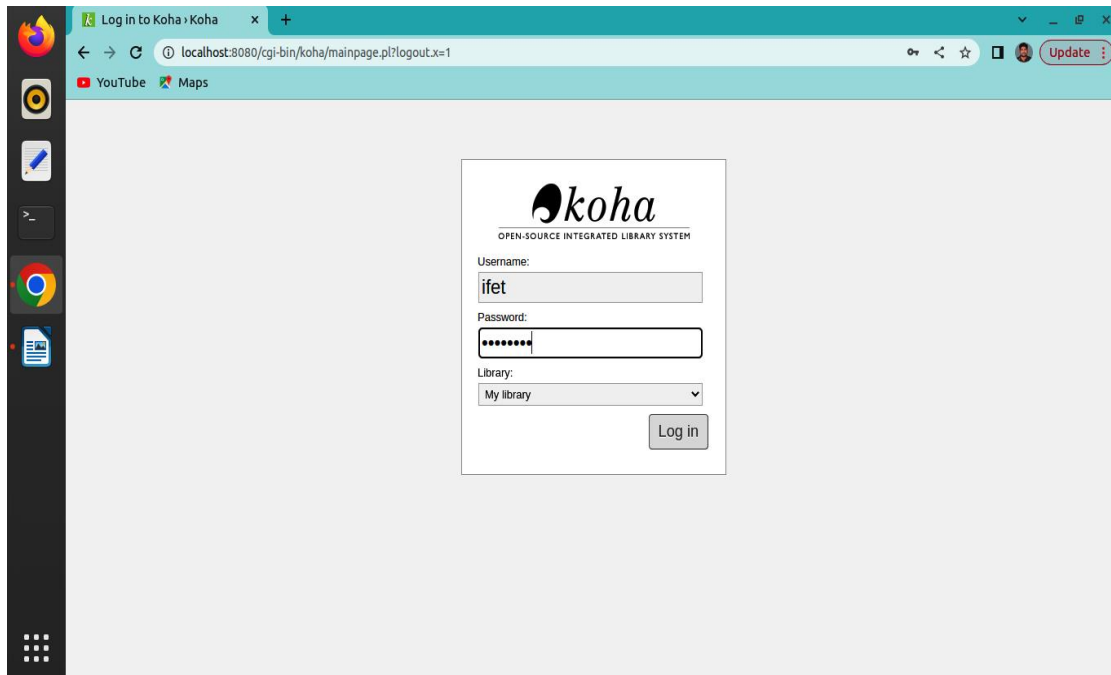

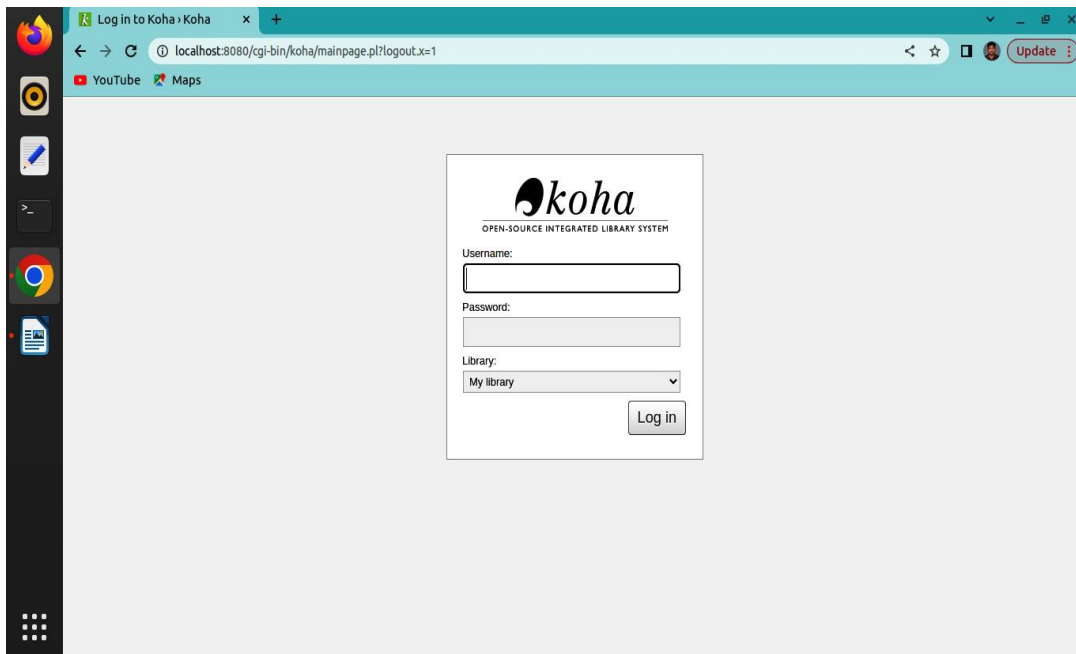

### Web OPAC:

Web Online Public Access Catalogue (Web OPAC) has been provided to the user. The user can browse and retrieve the library resources. OPAC module works on both the intranet and Internet environment. Sufficient numbers of systems are available in the Digital Library Section with Internet access facility to access the e- resources. Users can access for educational, research and development purpose. Non-book materials such as CDs, DVDs, text book tutorial CDs and periodical's CDs are also kept in the Library. NPTEL materials are also available.
